

Monthly Activities Report for April

Date: 5th May 2020

Village: Daw Pa Pa village

Country: Myanmar

On the month of April, KEG's staffs went to the Wan Ngo village, Daw Pa Pa village, Daw Sae village and Mae Phayr village for measurement of the community forest areas and water resources place. During the field visited, we got the active cooperation from the community people.

Even in Daw Pa Pa village had the Nan Par Phu forest areas and the forest department from the government officers also used to come for the awareness activates and field visited. The villagers are does not aware of when the government officers did the Nan Par Phu forest area and they got to know that when they came for the field visited last times. According to the community people, "we do have the community forest and water resources in those forest areas. We had been maintaining and using those resources from our ancestor times and till now. Moreover, we are having the conflict with the other village and cannot control because the other villagers are coming for shifting cultivation and cutting trees for the fire woods every day. The villagers are facing the problem with the other villagers however, they are still requesting to the KEGs to helping in build green community and giving and sharing more awareness program for them.

Recently, we had done in the Daw Pa Pa village for measuring the community forest areas however, we could not able to go to another village because of the Covid-19. A lot of villages had been locked down and cannot easy to in or out from each village. We are using telephone and processing the paper works just for now.
